

**FOR IMMEDIATE RELEASE**

**KINGFISHER SYSTEMS, INC. RELOCATES CORPORATE HEADQUARTERS**

**FALLS CHURCH, VA, December 29, 2023.** Kingfisher Systems, Inc., a leading provider of Cybersecurity, Enterprise Information Technology, Intelligence and National Security, Satellite Communications, Open Source collection and analysis, and Artificial Intelligence solutions and services, is pleased to announce the relocation of our headquarters office. Effective January 1, 2024, we will move our headquarters from Falls Church, VA, to 15036 Conference Center Dr, Suite 500, in Chantilly, VA. This strategic move will position Kingfisher’s headquarters closer to our customers, facilitating more efficient service delivery.

Kingfisher has been in business since 2005, delivering innovative and value-added solutions to our customers while maintaining our core values. This year is no exception. Kingfisher achieved significant growth, securing multiple new contracts and expanding our presence in the industries we serve. To support this growth and adapt to the changing work environment, Kingfisher leadership decided to transition to a new operational model that fully embraces hybrid and remote.

“We are excited to be closer to our customers and continue offering our employees flexibility and convenience in their work mode. This will enhance our productivity, efficiency, and collaboration, and ultimately benefit our customers,” stated Roy L. Reed, Jr., Chief Executive Officer.
